## Respimat

**To prime device:** With the cap closed, press the safety catch whilst pulling off the clear base. Take the Respimat cartridge from the box. Push the narrow end of the cartridge into the inhaler. The cartridge can be pushed against a firm surface to ensure it is correctly inserted. Put the clear base back into place.

Step	Instructions	Score
1.	Hold inhaler upright with cap closed	
2.	Turn base in direction of arrow until it clicks	
3.	Open the cap until it snaps fully open	
4.	Breathe out gently away from inhaler	
5.	Place mouthpiece in mouth and close lips to form a good seal. Do not cover air vents	
6.	Breathe in slowly and deeply through mouth and, at the same time, press down on the dose button	
7.	Keep breathing in slowly and deeply	
8.	Hold breath for 5 seconds or as long as comfortable	
9.	While holding breath, remove inhaler from mouth	
10.	Breathe out gently away from the inhaler	
11.	Click cap shut	
12.	If a second dose is required repeat step 1-11.
