BECOME A DIGITAL AMBASSADOR

Help those over 65 in Kent learn new digital skills!

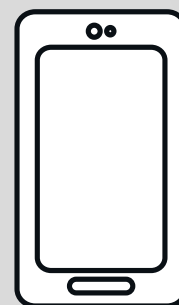

JOIN OUR FIRST COHORT!

TEACH DIGITAL SKILLS:

Kent County Council's EMPOWERCARE Project aims to reduce social isolation in Kent by supporting those 65+ (and over 50 with a chronic health condition) to improve their digital skills and access technology. We are building a team of Digital Ambassadors across Kent to help deliver training in an easy to understand, simple way. Our ambassadors will receive training and support, to build their confidence and knowledge, to best support the older population in learning these new skills.

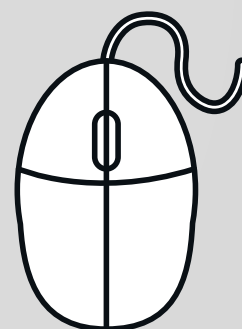

BECOMING A DIGITAL AMBASSADOR IS AN OPPORTUNITY:

- For personal development.
- To make the most of your digital skills/knowledge.
- To help people in the community to utilise technology to reduce loneliness, improve their health and wellbeing and reduce social isolation.

TRAINING WILL INCLUDE:

- An introduction webinar - about the programme and the DA role.
- Two virtual training days to include age awareness training, how to teach basic digital skills and the theory of learning.

SIGN UP:

If you would like to become a Digital Ambassador please complete our [short registration form](#) or contact us to find out more: empowercare@kent.gov.uk
